

Children's Corner Day Nursery

Parent Survey 2020

Summary:

Thank you so much we achieved 100% feedback 36/36 - 😊!

After a bit of a learning curve for us, in using a new format to collate the data and huge thanks for your recommendation too I have embraced Google docs.

Overall, the data is extremely positive. Our aim to ensure we continue to make sure that our setting is warm, friendly, welcoming to everyone and is led by a wonderful staff team that I am extremely proud of. This is a testament to our team that we are meeting your child's needs and your needs... You can be assured that we will continue in these vain and address things which has been highlighted that need attention.

Actions:

- Q1 - Include N/A option - as not everyone had a home visit and survey format did not allow to leave question unanswered
- Also have Strongly Agree as first, as I think some people answered thinking they were answering that instead it was Strongly Disagree
- Q5 - Whom to go to if you have a concern; firstly, please do approach your child's key worker, then either the Senior or Deputy Manager. If the matter is serious then please do approach the Manager. Or if the situation is of extreme severity then Ofsted or other regulatory body.
- Q11 - - Giving parents strategies to use at home to support behaviour - is an area that will be addressed in our Inset Day, as well as Q12 giving you activities that can be done at home with your child to extend learning through play. We have never really been able to achieve this, as it takes Teachers feeling extremely confident in engaging with parents to have these dialogues. But we are not giving up and we will continue to support the Teachers and if we can have your support in asking the Teachers, this would possibly enable a better two-way process.

My IT skills are still improving and there is still always room for improvement! I was unable to download the results from Google doc into a PDF format and have a clearer document. Instead, I printed the results and scanned them into this report. As it is not clear as I would prefer, I have manually inserted the data.

Q1 - The home visit was useful

47.2 % - Great Deal

30.6 % - a lot

8.3 % - a little

13.9 % - not at all

Q2 - The settling in process was helpful
